JBEDICT

Recommendation was received from [] that, in view of Prime Minister Plastiris' heart ailment, it would be advantageous for the U. S. to pay the expenses providing for ~~the~~ American heart specialist to care for the Prime Minister. This suggestion was made to the Ambassador who was enthusiastic but requests that CIA pay the costs incurred in that he at present has no funds for this service. Both OSO and OPC [] believe this provides us with an excellent opportunity to create good will both with the American Ambassador and with the present Greek Government and has asked for a Headquarters' decision on this matter. The decision is presently being made and will be communicated to the field.

News of the Prime Minister's heart condition is being kept a secret.
